

TRAINING ANNOUNCEMENT

Building Resilience: Essentials for newcomers in PCVE

04-05 November 2026

Online

Languages: English

Building resilience against violent extremism starts with understanding the factors that can contribute to radicalisation, recognising early warning signs and knowing how to respond early. The EU Knowledge Hub on Prevention of Radicalisation is pleased to offer 'Building Resilience: Essentials for Newcomers in PCVE', an interactive online training designed for professionals who are new to the field of preventing and countering violent extremism (PCVE).

Through expert input, practical case studies interactive exercises and peer exchange, participants will explore the fundamentals of PCVE drivers and protective factors, early prevention, multi-agency cooperation and evidence-based approaches to building resilient communities.

The training aims to equip new practitioners with the foundational knowledge, practical tools and collaborative approaches needed to better understand radicalisation and contribute effectively to prevention efforts in their professional contexts.

WHO IS THE TRAINING FOR?

This course is designed for entry-level professionals, frontline workers and newly appointed coordinators with less than 3 years of professional experience in PCVE.

It is particularly relevant for professionals working in:

- educational,
- healthcare and social services,
- law enforcement and justice,
- local authorities,
- NGOs and CSOs, and
- other key actors related to PCVE.

WHAT YOU WILL LEARN

By the end of this training, participants will be able to:

- Understand key PCVE concepts and the different radicalisation stages,
- Interpret drivers and protective factors and potential early warning signs,
- Understand the role of early prevention and resilience-building approaches
- Explore how local authorities, public services and civil society can work together to strengthen prevention.
- Recognise radicalisation as a multidimensional challenge requiring coordinated, multi-agency and cross-sector cooperation, including responsible information sharing.
- Interpret the need for continuous evidence-based improvements to PCVE strategies and actions.

ELIGIBILITY AND SELECTION CRITERIA

To be eligible, applicants must:

- Have less than 3 years of professional experience in PCVE, as a practitioner, policymakers or researcher,
- Be a citizen of and employed in an EU Member State, Western Balkan country, or eligible partner third country (e.g., Norway or Switzerland). Candidates with dual nationality (EU and eligible third country) may apply only once, using the nationality considered most relevant.
- Have a good command of English (minimum CEFR B2). Please check your level of English by following this [link](#).

PARTICIPATION AND REGISTRATION

The training will be delivered **online** over two half-day sessions on **4-5 November 2026** and will combine expert presentations with practical exercise, case studies and discussions.

Participation is limited to 30 selected professionals.

Please note that the training will be delivered entirely in English. Only selected participants will be contacted and receive confirmation of participation.
